

# ATLAS LIFT TECH

Enhancing Patient Safety While Preventing Employee Injury

**ATLAS Lift Tech** is transforming the way care delivery organizations nationwide deploy and manage **Safe Patient Handling and Mobility (SPHM)** programs. Our mission is to lower provider injury rates, improve patient safety, reduce costs and produce a thriving and sustainable culture of safety.

We're passionate about helping customers achieve SPHM goals. But don't take it from us; hear what they have to say.

*... a cost-effective way to keep patients and staff safe; will extend nurses' careers.*

*... their contributions are valued and respected throughout the hospital.*

## ATLAS' Comprehensive Programs Include:

- ✓ Solutions ranging from personalized SPHM training through to custom-developed programs to ensure the reduction of injuries.
- ✓ Continual program monitoring/management providing R.O.I. analysis measuring long-term success and sustainability.
- ✓ ATLAS' software application that empowers care teams with real-time SPHM tasks and scheduling as well as tracking of equipment.
- ✓ Policy development, training, and reporting in support of **state SPHM legislation**.

## Lift Coach Programs Deliver Compelling Outcomes:

- 95%** Less lost work days
- 89%** Lower average cost per injury
- 88%** Reduced claims
- 65%** Decreased injury rates
