Imagine interactively exploring information on Inpatients, ED visits and Outpatient Surgeries including all payers, just by clicking a mouse.

» You often have additional questions that are not addressed;
» Questions that may have significant impact on planning go unasked.
» You don’t know what you don’t know!

Learn How SpeedTrack Can Help You!

The Hospital Council invites you to participate in a free, live, interactive demonstration of the intelligence affecting your service area. Your team will explore information on-the-fly to discover valuable market intelligence that affects all the providers that serve your community. Instead of looking at canned, static reports, you will uncover what you don’t know by navigating through vital information for Strategic Planning, Managed Care, Business Development, and Specialty Recruiting. Reserve a 30 or 45 minute collaboration session with your team.

Understanding patient populations in the communities you serve is more critical today than ever. Looking at static reports is limited and boring. Gain insights about:

» Where they live
» Where they go for what types of care
» Payer mix
» Demographics
» Lengths of stay by Service Line, or Payer or Procedure, or a combination of thereof
» Diagnoses and procedures across all levels
» What the trends are
» Geo-spatial mapping
» On and on...!

Receive a 40% discount IN ADDITION TO A 10% discount for being a member when Council members subscribe to the SpeedTrack service within 45 days
