8:00 am - 5:00 pm**

LEAD Academy Trains Managers To Be Successful Leaders

LEAD Academy empowers recently hired, newly appointed or previously untrained health care leaders to better understand and use their strengths. Designed for health care supervisors and managers, LEAD is built on the underlying principle that effective leadership requires productive relationships to support excellence in patient care, sustainable business objectives and a safe patient environment.

LEAD Academy utilizes innovative tools and experiential learning, over a comprehensive six-session, 12-module course, to provide a safe environment to practice newly learned skills and align work goals and actions to support the broader vision of the organization. Engaging activities guide participants through the process of understanding differing leadership styles and overcoming the distinct challenges of being a leader.

Specific program focus areas include:

- Self-development
- Supporting the development of others
- Managing and developing a successful organization

Registration Fees

Hospital Council Members

Entire Track (six sessions): \$1,750

Non-acute Stakeholders

(such as post-acute facilities, community clinics)

Entire Track (six sessions): \$2,150
