There are currently several class action settlements spanning a few categories from which your organization may be eligible to recover significant proceeds. Hospital Council members can take advantage of a Class Action Settlement Recovery Service, on a pure contingent fee basis, through our strategic partnership with Managed Care Advisory Group, LLC (MCAG).

**SETTLEMENT RECOVERY SERVICE (SRS)**

MCAG’s SRS delivers the most on class action claims with the least amount of effort. They represent thousands of medical providers, over 1,400 hospitals, and thousands of businesses from sole proprietors to Fortune 500 companies, and have distributed hundreds of millions of dollars to their clients. One thing that sets MCAG apart is their ability to leverage their exclusive database to pull together required claim data – even when limited information is supplied by clients.

MCAG’s settlement experts continually search for class actions for which you may be eligible. You do not have to spend time looking for applicable class actions or examining settlement documentation. Once you enroll in MCAG’s service, they will notify you of the opportunity, determine your eligibility and submit claims on your behalf. There may be certain occasions that require the submission of limited additional information to MCAG, but the process will be as convenient as possible.

Deadline: September 1, 2020

There is an active settlement that falls into the category of “pharmaceutical benefit plan settlements” that covers purchases of Lovenox/Enoxaparin (blood thinner). The enrollment process is fast, easy and has no upfront fees. MCAG aligns its incentives with yours and charges a discounted contingent fee of 20% of recoveries for Hospital Council members (standard fee is 25%).
